

The Gaggenau Models and Dimensions.

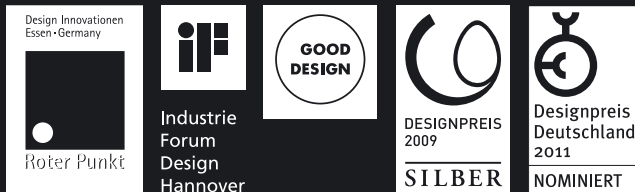

Edition 2011.

Sound advice is at the heart of a perfect kitchen.

Here you will find all the information you need. Built-in appliances from Gaggenau perfectly combine function and aesthetics – with clear-cut design and no compromise in terms of technology. This has already won us numerous international design awards, which our products receive time and time again. Something which is confirmed by our satisfied customers.

Because it is you, the trade partner, kitchen planner or architect, who designs the best kitchen for each individual customer. Our aim is to provide you with targeted assistance, therefore we have brought together all the information you need on the following pages. Thematically ordered and clearly presented, with dimensions and product descriptions. So you can save time whilst still receiving even clearer advice. The difference is Gaggenau.

Industrie Forum Design Hannover, Designzentrum Nordrhein-Westfalen, the Chicago Atheneum Museum for Architecture and Design and the Design price of Germany have honoured several products for their good design quality. The corresponding models have each been assigned a logo.

Accessories.	284

Checklist for appliance combinations.

This check list provides the most relevant parameters for the perfect combination and ordering of ovens, combi-steam ovens, combi-microwave ovens, fully automatic espresso ovens, fully automatic espresso machine and dishwashers.

The tables on pages 10 and 36/37 show which appliances can be combined either horizontally and / or vertically. The following points should be observed in addition.

Appliance colour

- When planning and ordering, make sure the colours match (real stainless steel or aluminium-backed glass or backed with colour), as not every appliance is available in all colours.

Vertical combinations

When planning and ordering please note that

- In a vertical combination the door hinges of the appliances must be on the same side.
- The door hinge is not reversible.
- The width of the appliances is identical.
- The control units of the two appliances should meet each other in the middle of the combination.

Horizontal combinations

When planning and ordering please note that

- For horizontal combinations, the handles for both appliances need to be placed in the middle in order to use the full available door opening angle.
- The door hinge is not reversible.
- A minimum clearance of 10 mm between the two doors must be observed.

- Combi-steam ovens, combi-microwave ovens and fully automatic espresso machines in combination with a warming drawer (14 cm in height) have the same total height as a 60 cm wide oven.

- The control units are either all at the top or all at the bottom.

- BO Ovens
- BS Combi-steam ovens
- WS Warming drawers
- BM Combi-microwave ovens
- CM Fully automatic espresso machine
- DF Dishwashers

Appliance colours
